Learning Curve Group

The Learning Curve Group Military Academy is a unique training college that helps 16+ year olds develop their fitness, vocational qualifications, and employability skills to help prepare for employment, including rewarding careers in the British Armed Forces.

NEWS and UPDATES from provider:

In the coming 12 months, our primary focus remains on Positive Progressions, ensuring learners transition to destinations that align with their goals and aspirations. We aim to broaden our reach by sourcing new and exciting destinations for our learners. Additionally, improving achievement rates and enriching the quality of the programs we offer remains a cornerstone of our strategy. While we already provide enrichment opportunities tailored to our programs, expanding this scope will enable us to offer learners the most comprehensive and beneficial experiences possible.

We believe collaboration is key to success. Networking and collaborating with other training providers that specialise in NEET support would allow us to discover additional opportunities for our learners and expand our network to maximize their potential.

How MPCT Learning Curve benefit from a YLP membership

We asked the team at MPCT Learning Curve for their opinion on the value of a YLP membership. They described the following:

For us, the main benefits of membership lie in staying informed about changes in the local area and accessing up-to-date insights into the industry. This ensures that we can remain agile and proactive in a constantly evolving environment.

YLP work with our providers to better understand what they are looking for, and what we can do to further support local FE.
